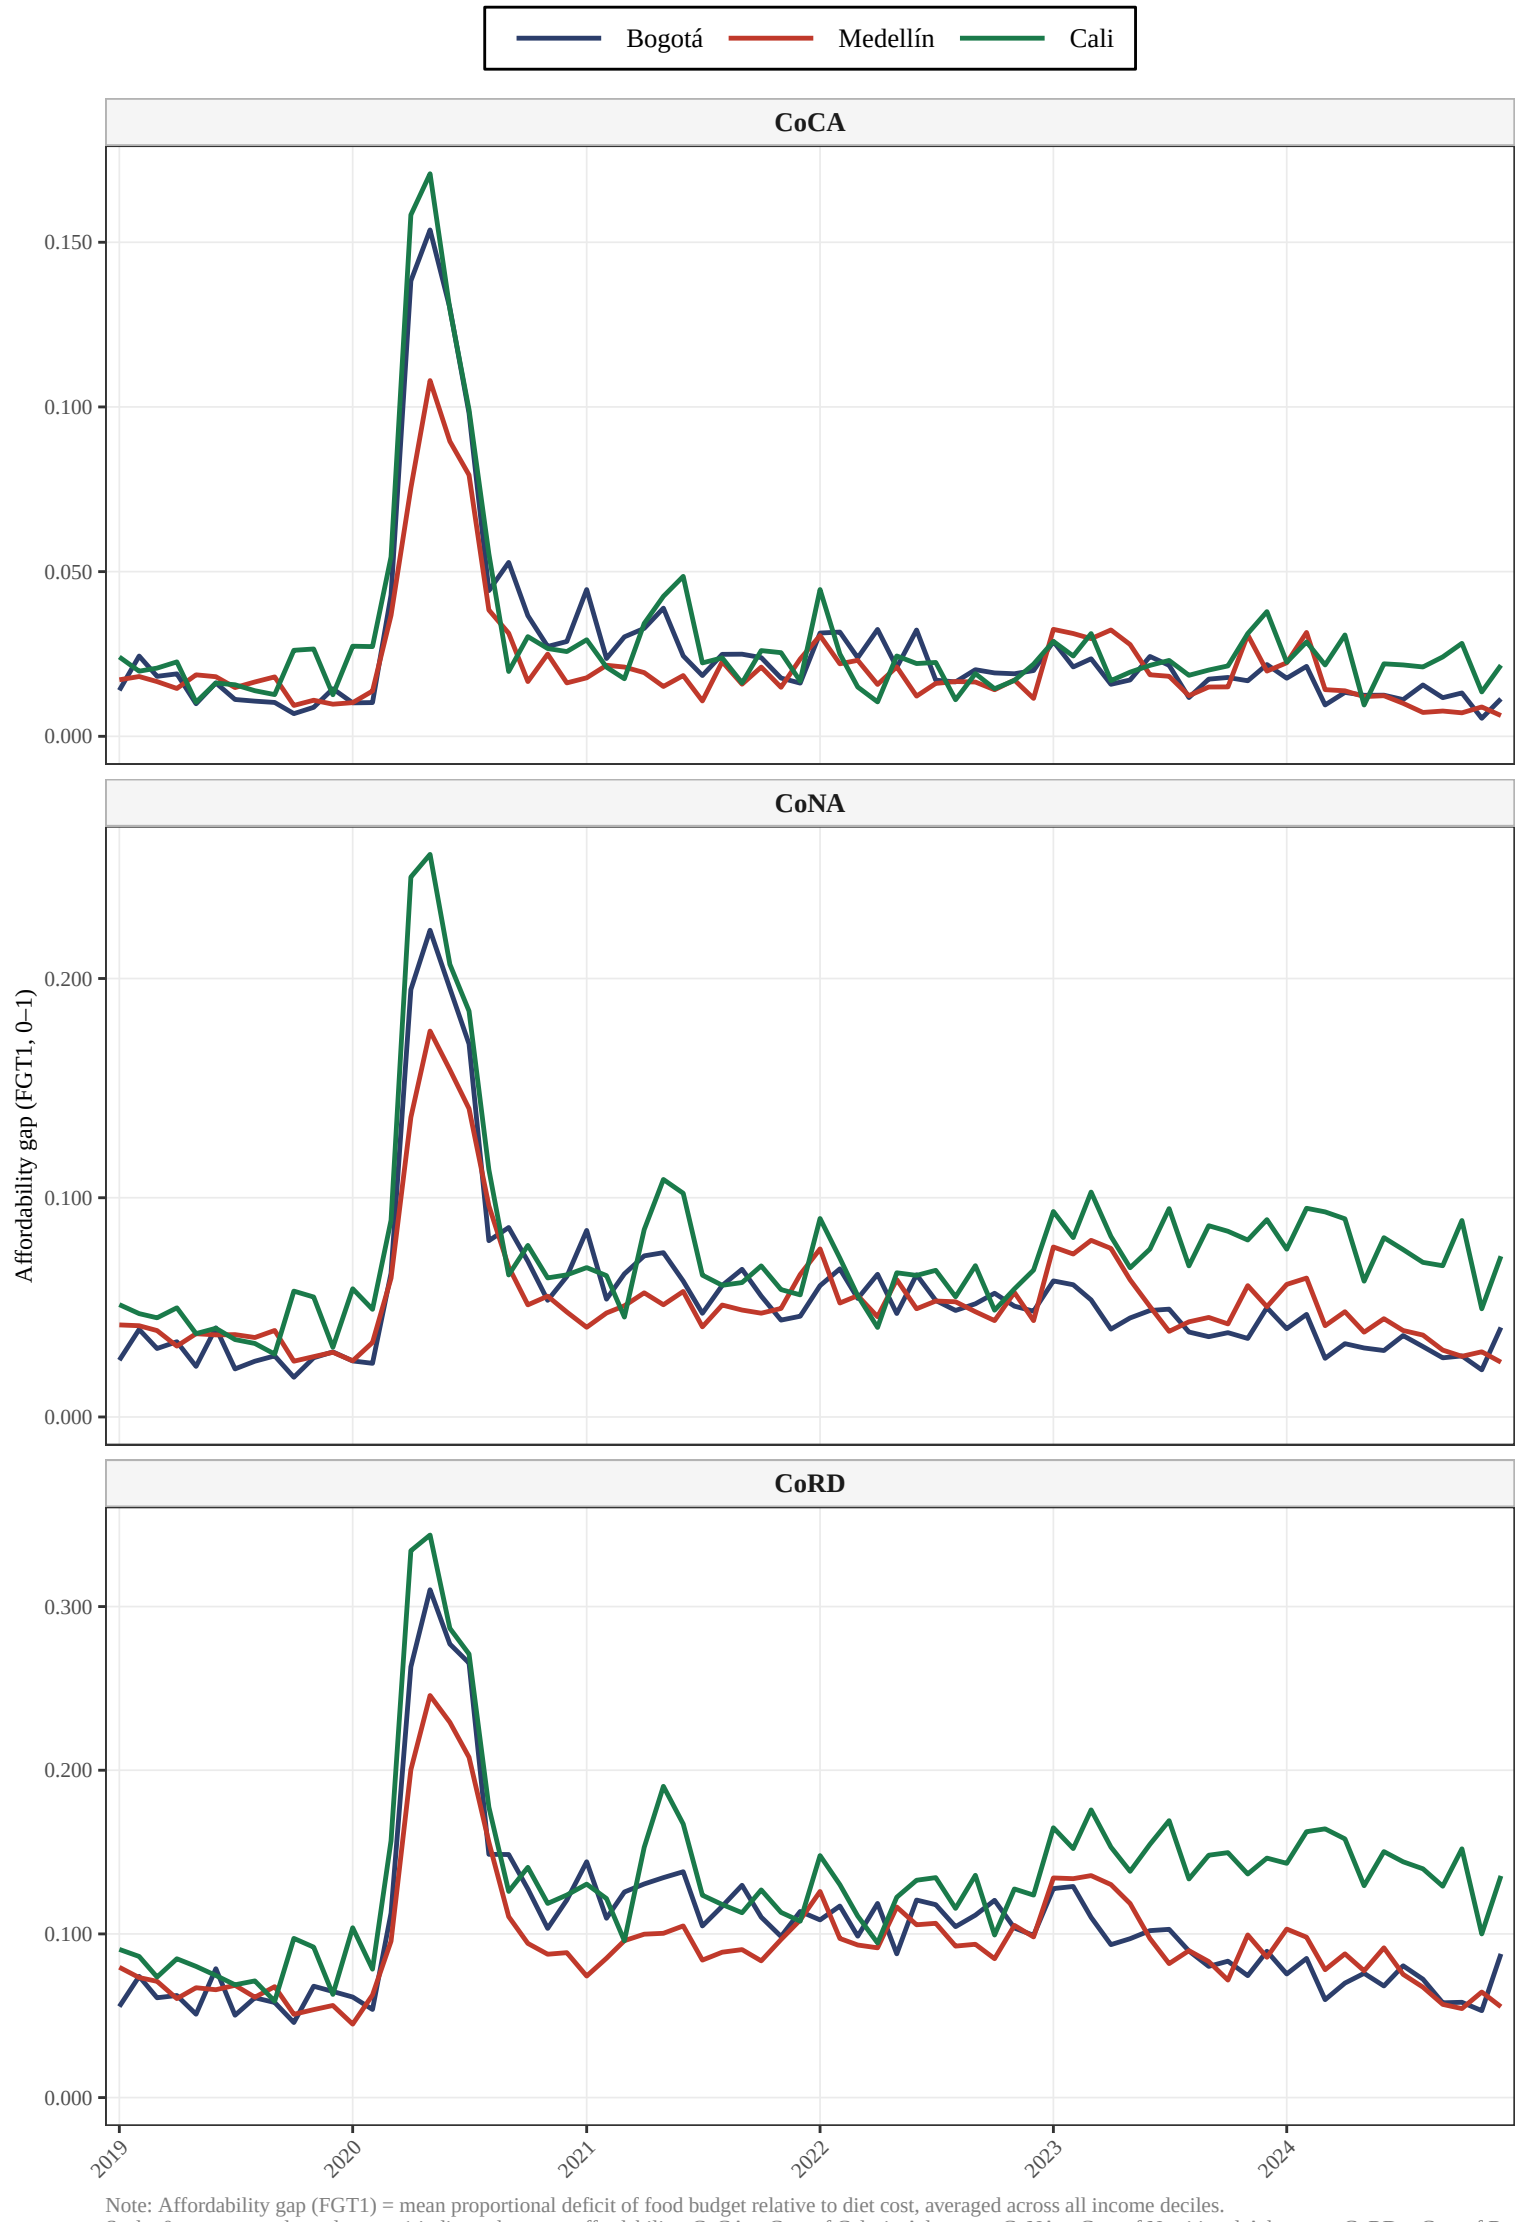
Figure 10B. Aggregate monthly affordability gap (FGT1) by city and diet model, 2019–2024



Note: Affordability gap (FGT1) = mean proportional deficit of food budget relative to diet cost, averaged across all income deciles.
Scale: 0 = no gap; values closer to 1 indicate deeper unaffordability. CoCA = Cost of Caloric Adequacy; CoNA = Cost of Nutritional Adequacy; CoRD = Cost of Recor
