

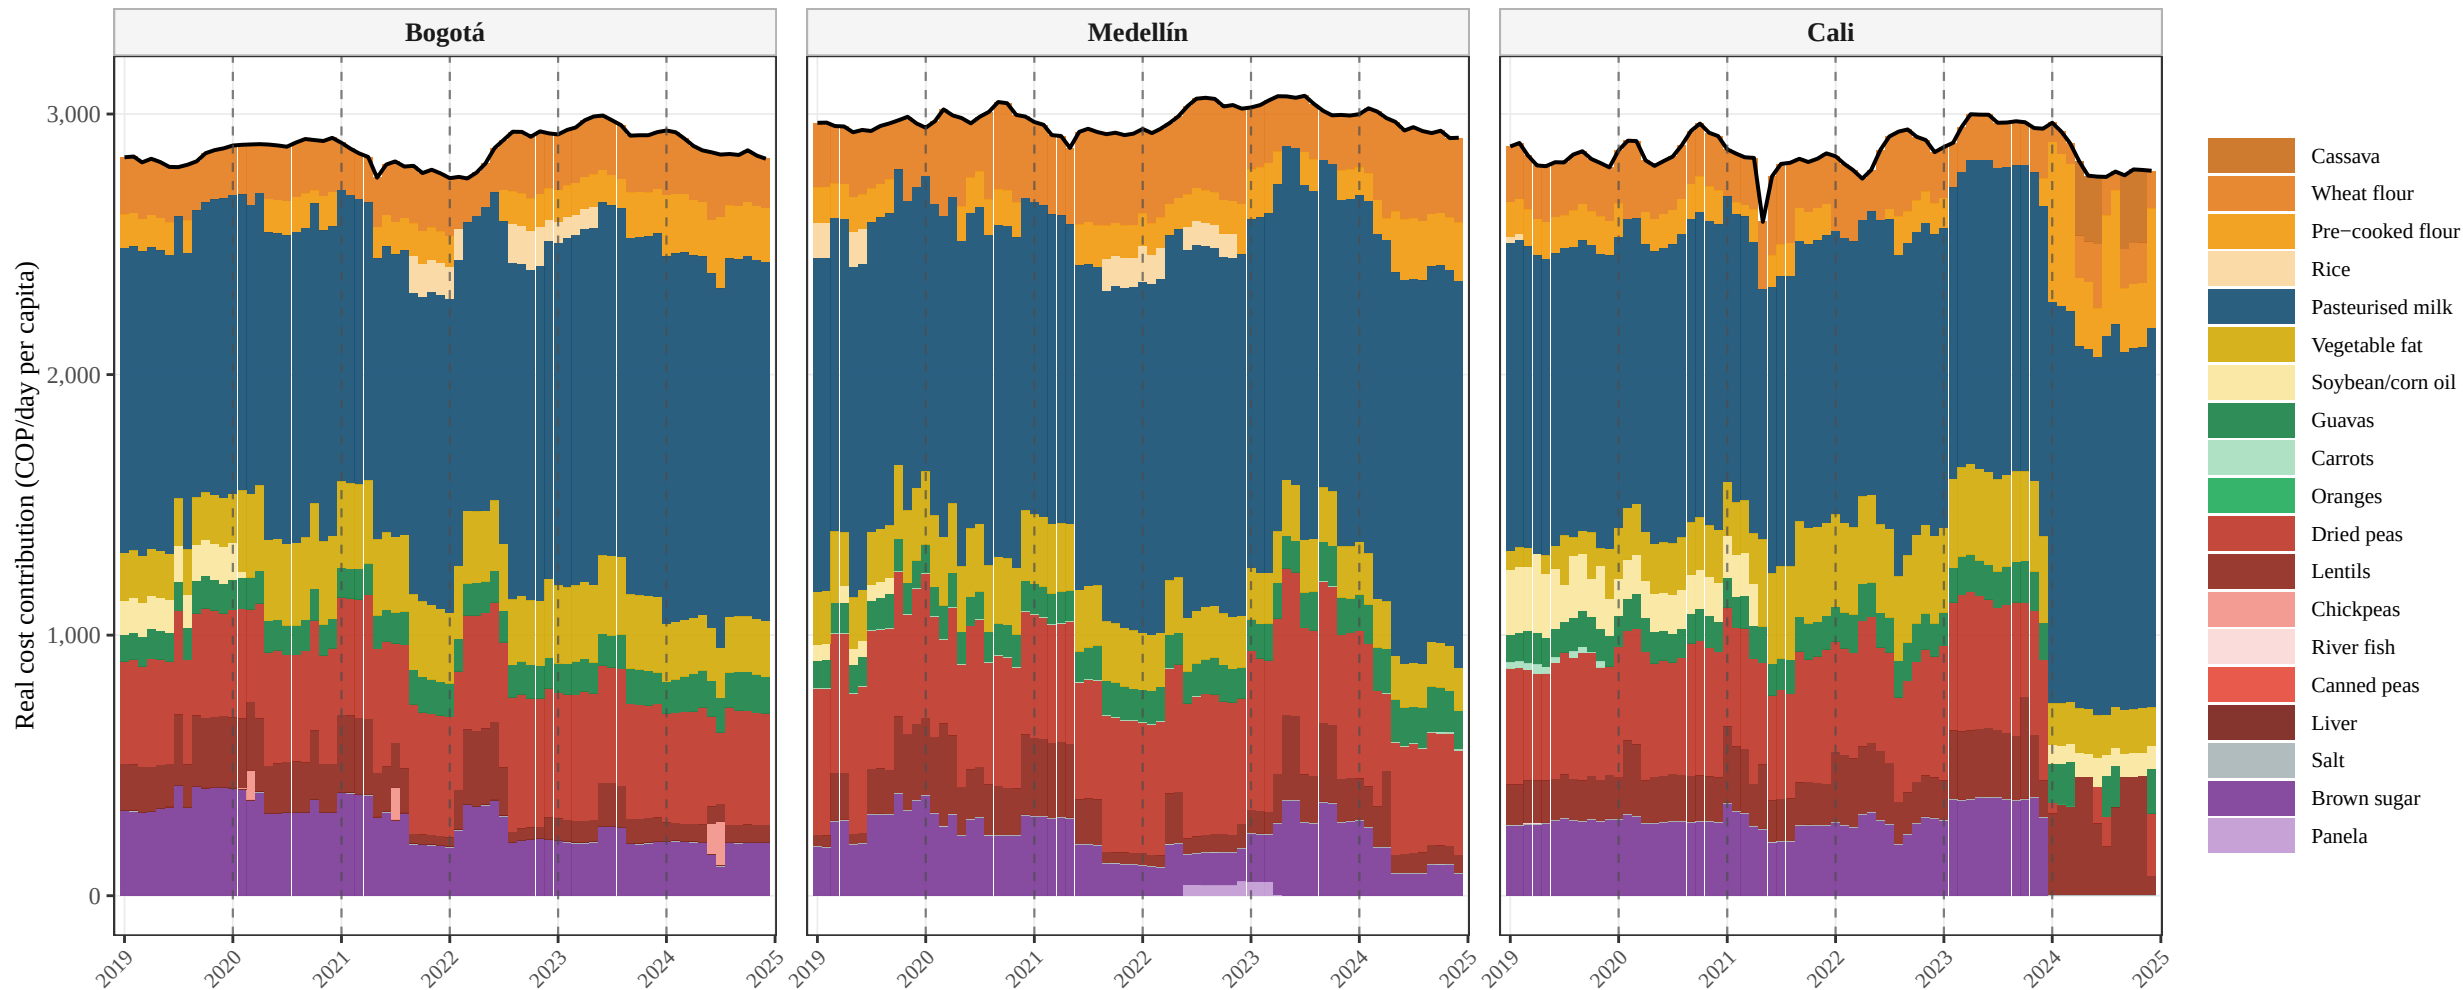

Figure 2B(iii). Monthly real cost contribution by food item in the CoNA diet, 2019–2024

All foods ever selected. Colours grouped by GABAS food category. Black line = CoNA real per capita from model output (validation). Dashed vertical lines mark year boundaries.

Note: Cost contribution per capita = real price per 100g $\times$ (sum of quantities across household members / N) / 100.
N = 3 household members. Real COP (base: December 2018). CoNA = Cost of Nutritional Adequacy.
