

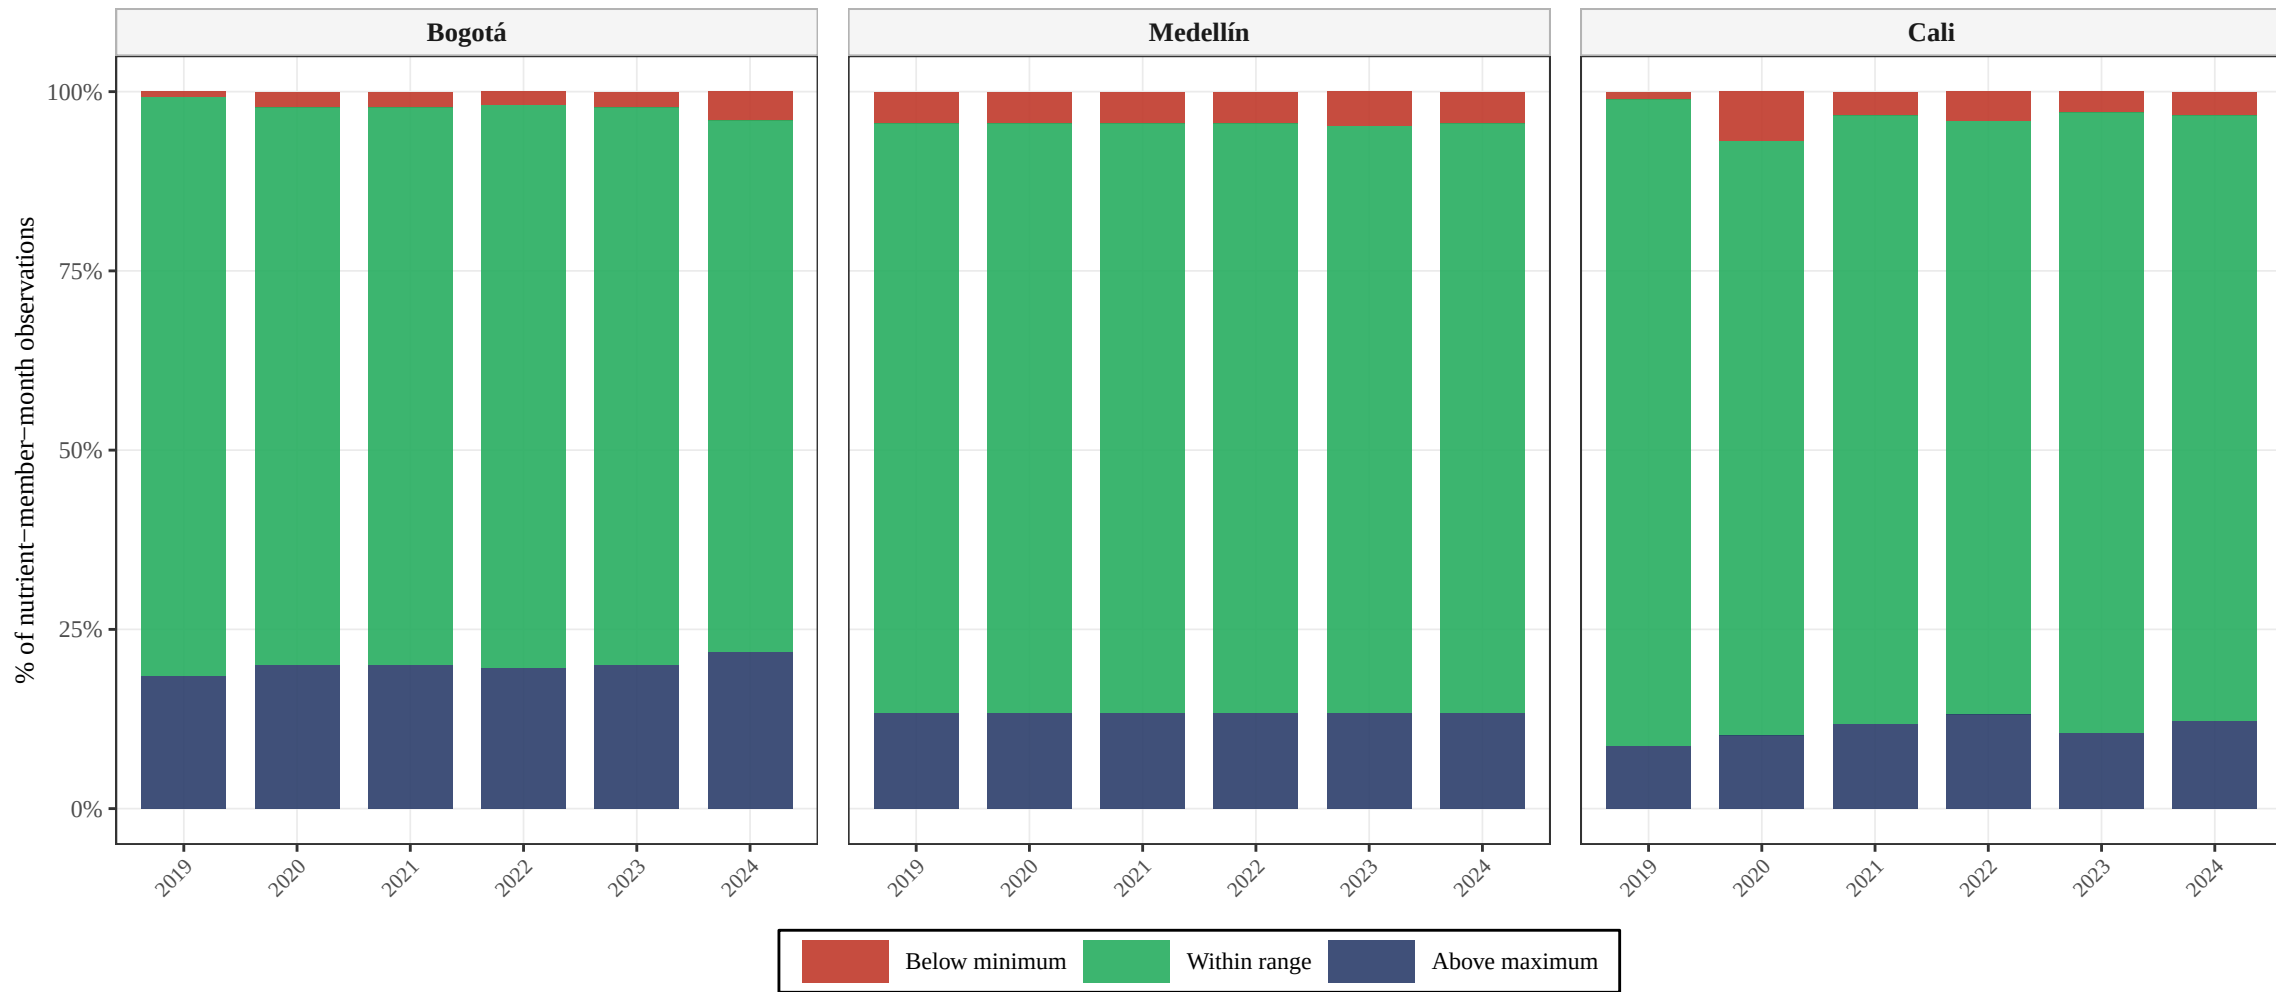

Figure 2C(iv). Annual nutritional status of the CoRD diet relative to minimum and maximum requirements, 2019–2024

% of nutrient–member–month observations: below minimum (red), within safe range (green), or above maximum (blue).

Note: Lower limits from CoNA optimisation ('Rest' column); upper limits from household_ul.rds (nutrients with UL = 9,999,999 treated as unbounded).

CoRD = Cost of Recommended Diet; CoNA = Cost of Nutritional Adequacy.
