

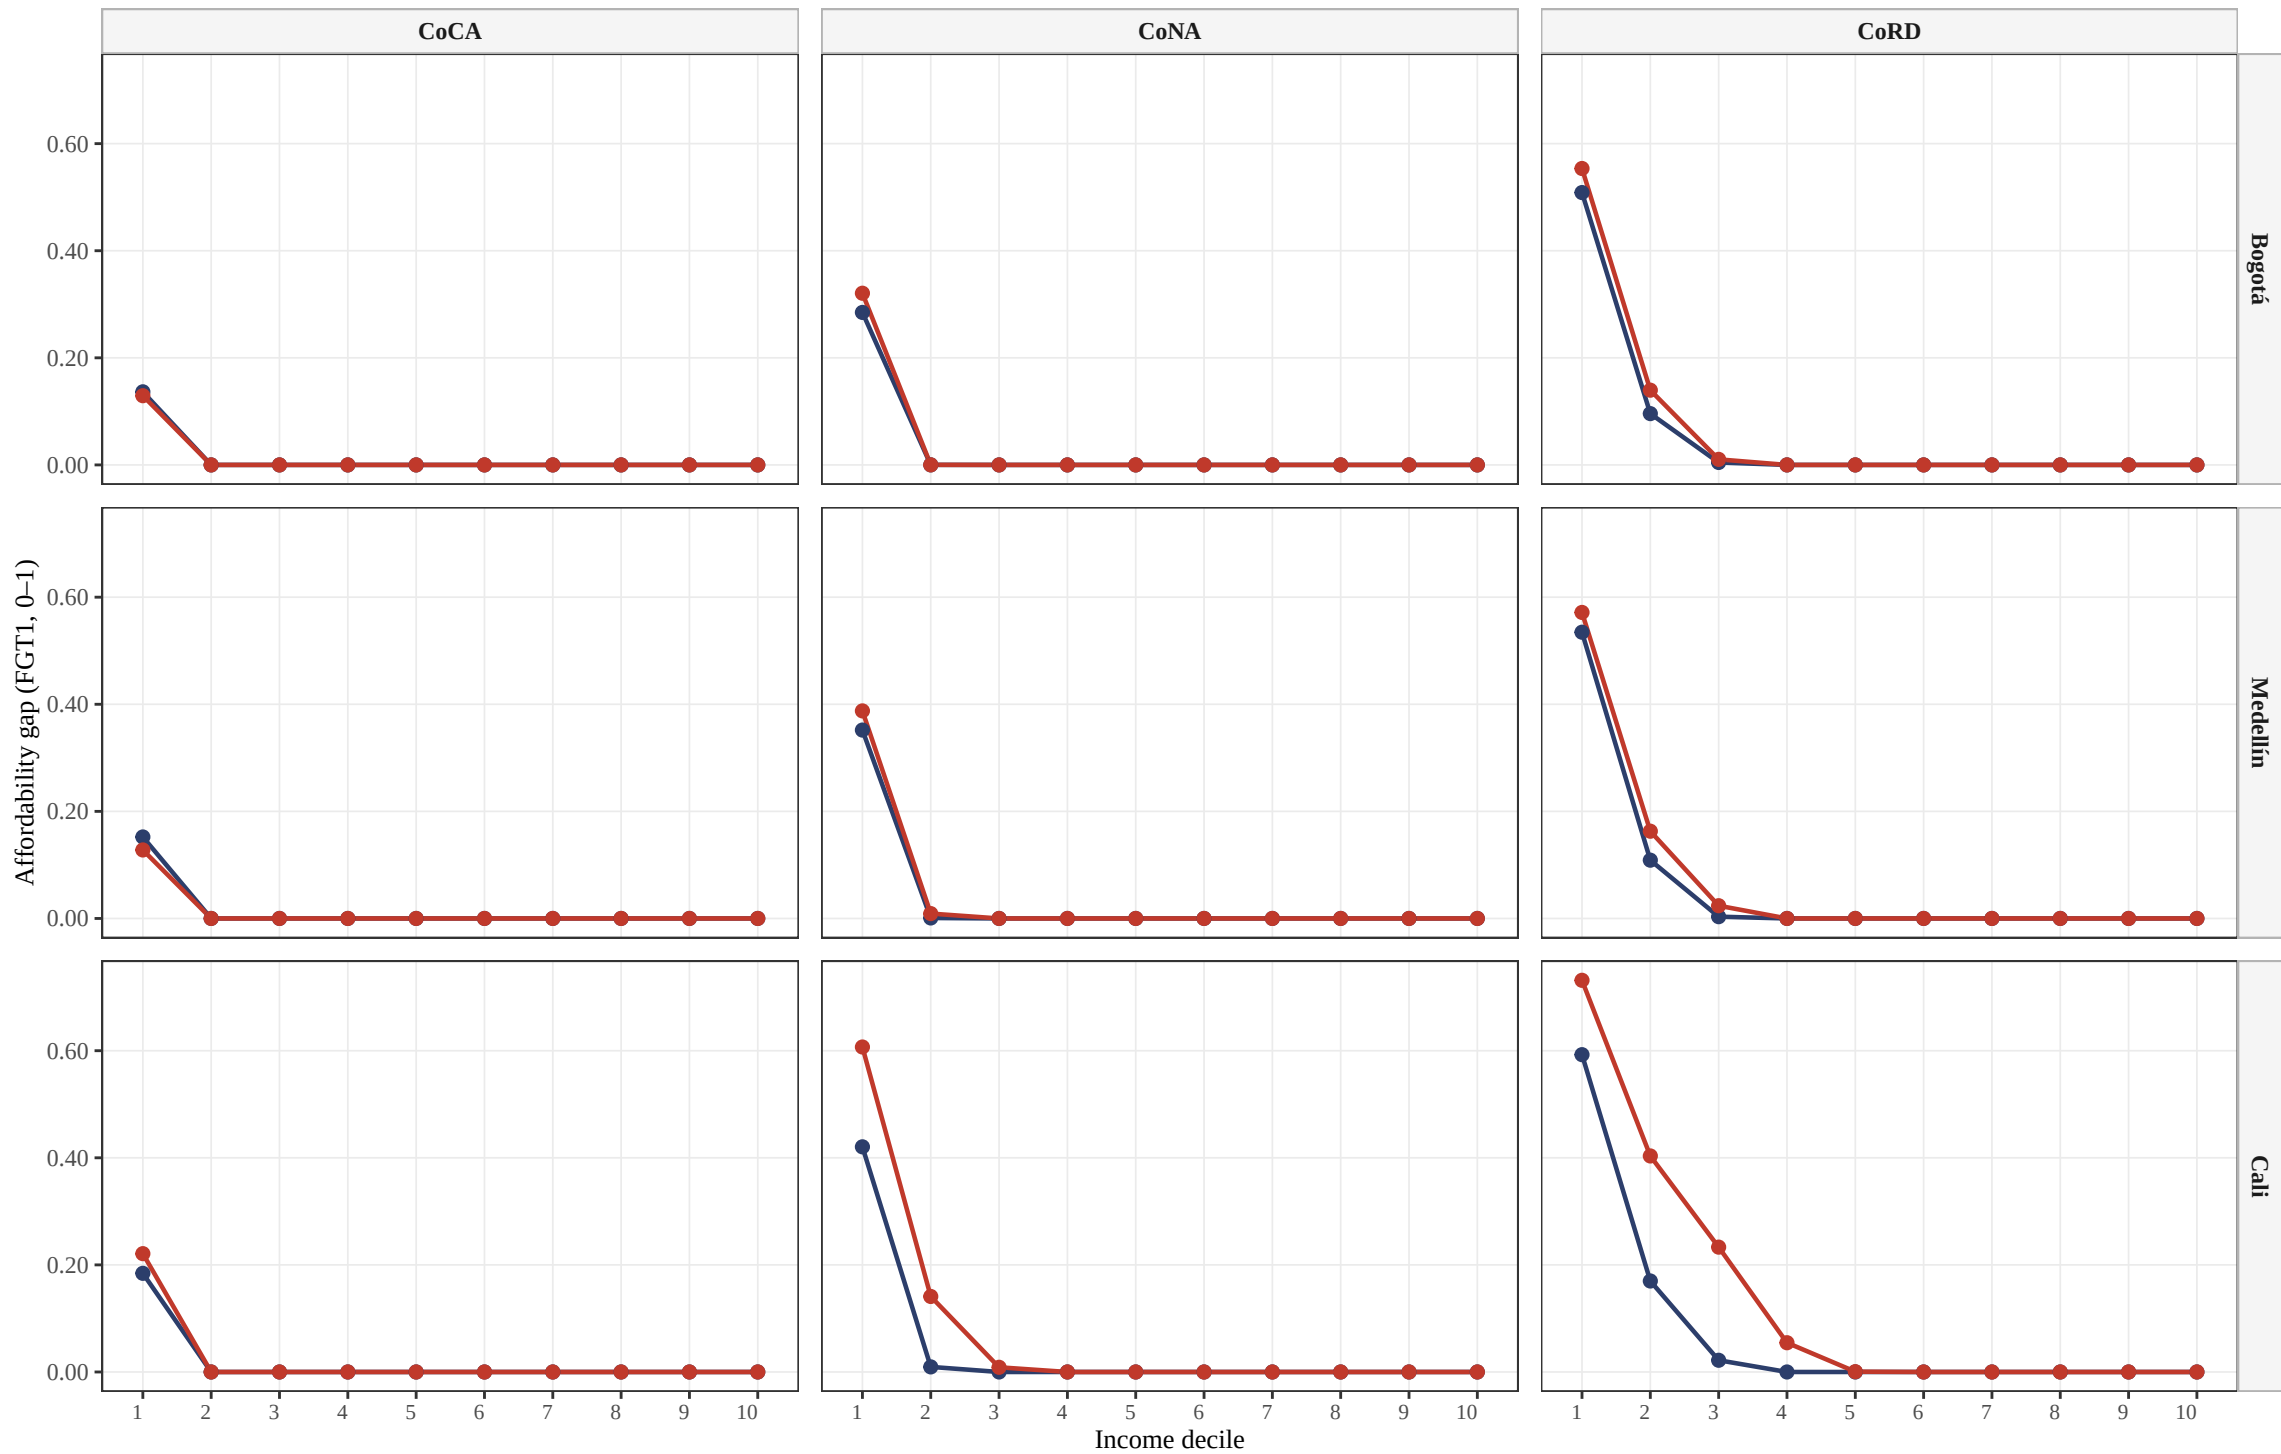

Figure 8B. Affordability gap (FGT1) by income decile and city, 2019 vs 2024
Mean proportional deficit of food budget relative to diet cost. Averaged across all households in the decile (including affordable ones).

2019 2024

Note: Gap (FGT1) = mean of (diet cost – food expenditure) / diet cost across all households in the decile, where the numerator is set to zero for households above the threshold. Scale: 0 = no gap; 1 = food budget covers 0%% of diet cost.
CoCA = Cost of Caloric Adequacy; CoNA = Cost of Nutritional Adequacy; CoRD = Cost of Recommended Diet.
